

# CURRENCY TRADING SCHOOL

## Global Trader

This Trading Model provides you with 4 key Strategies that work during all three sessions including the Euro/London, NY and Asian. They provide the student with the core of his or her trading plan.

The Strategies included in the Global Trader Model are:

**The Clarity System**  
**The Queen of Sheba Strategy**  
**The Mac-Daddy Strategy**  
**Monster Zero Strategy**

From there, students seek to master each session individually and are supplied with additional strategies and a customized trading plan to fit his or her goal, purpose and lifestyle.

## Euro/London Trader

This Trading Model prepares the student to trade the unique dynamics of the Euro/London session. In addition to the core strategies, this model focuses on both the Yen pairs and the Great British Pound. It includes 2 additional Strategies which are:

**The Killer Guppy**  
**The British Invasion**

## New York Trader

This Trading Model prepares the student to trade the New York session. Along with the core strategies, we look to benefit from major events and intra-market dynamics that come alive during NY trading. It includes 2 additional Strategies which are:

**Escape From NY**  
**Whack-A-Mole**

## Asian Trader

This Trading Model prepares the student to trade the Asian session. Along with the core strategies, we look to benefit from lower volatility that the Tokyo session is known for. It includes 4 additional Strategies which are:

**Alligator Alley**  
**Denver Rocks I**  
**Denver Rocks II**  
**The Median Price**
